Creating video DVDs

Use your movie creator software to create **video** DVDs. For more information about using the movie creator software that came with your notebook, see its online help.

We recommend that you do not use your notebook for other tasks while creating DVDs.

- **2** If a dialog box opens, click **Take no action**, then click **OK**.
- **3** Use your video authoring and recording program, such as Pinnacle Expression, to create video DVDs. For more information about using the program that came with your notebook, see its online help.
