

IBM

PS/1

*The first computer to understand
you don't just have a job.
You have a life.*

When you own a business, it shouldn't own you.

Trying to strike a better balance between the work you do and the life you lead can be hard. To make it a whole lot easier, we created the IBM PS/1.[™]

Here, in a wonderfully compact computer, is serious, hardworking 386 SX computing power with 2MB of memory.

Which means your PS/1 can run the most popular DOS-based business software like WordPerfect[®] and Lotus[®] 1-2-3[®]. And you can buy a single PS/1 or have a whole team of them working together.

What's more, expanding the capability of your PS/1 as your business needs grow is a cinch. You can even get built-in expansion slots.

So many tools to work with, built right in.

As soon as you power up your PS/1, it's ready to go to work in a big way. Because it's already preloaded with useful software and services, starting with DOS, the control program that operates your system and enables you to run most of today's leading business software.

Tap a key or point your mouse and click! And you have access to Microsoft[®] Works, an incredibly versatile program that includes a word processor, a spreadsheet, a database and a communications feature, all in one. Use it for letter writing, calculating, financial record keeping, charts, graphs, reports. And to integrate them all together.

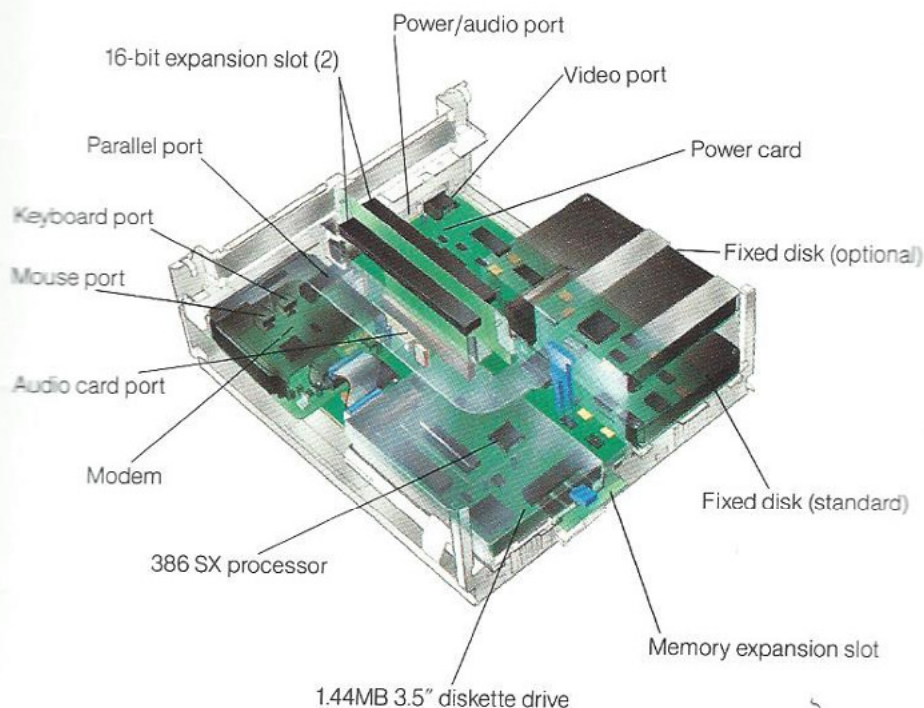

Tap another key, wait for your phone line to connect you, and you're part of the ever-widening world of information of PRODIGY.[®] Everything from late-breaking news and weather to updated stock prices and airline reservations is at your fingertips.

Promenade[™] gives you access to an online education and entertainment service to expand your knowledge and your horizons.

Some PS/1 models also come with Microsoft Windows,[™] a software program that lets you see and work with numerous jobs at the same time. Along with the Productivity Pack which helps you get the most out of your Windows application.

Think about your work, not about your computer.

For all its power and versatility, the PS/1 is incredibly easy to set up and use. It can be out of the box, up and running in minutes.

And the IBM PS/1 System Tutorial and Works Tutorial talk you through everything you can do and how to do it. Step by step.

The online PS/1 Club links you with other users and answers your computing questions 18 hours a day, 365 days a year.

Own IBM quality, reliability and service.

Your PS/1 is built by IBM to IBM's exacting standards for quality and reliability. Every component has been tested individually by IBM quality control.

Moreover, the whole system has IBM support and service behind it. If you have a system problem with your PS/1, you simply pick up the phone and call IBM at the toll-free number.

And the PS/1 comes with a one-year limited warranty. Service is available from either IBM Express Maintenance or an Authorized PS/1 Remarketer. Extended service terms are also available.

For more information, visit your Authorized IBM PS/1 Remarketer. Or call 1 800 IBM-3377.

A terrific value at a surprisingly affordable price.

There you have it: Power. Compatibility. Expandability. Ease of operation. Plus preloaded software and services. And IBM quality, reliability and service. All available in a PS/1. And all at a surprisingly affordable price.

When you consider what the PS/1 offers, you can see why it's such a remarkable value. And such a smart choice. Especially if you want to go beyond a mere computer you work with — to a computer you'll enjoy living with.

What you get when you get a PS/1.

Hardware

- 386 SX 16MHz or 286 10MHz microprocessor (depending on model)
- 2MB, 1MB or 512K of memory (depending on model)
- 3.5" 1.44MB diskette drive
- 2400 bps internal modem
- Expansion slots (depending on model)
- IBM Selectric Touch™ keyboard (101-key)
- IBM two-button mouse
- Parallel port
- Phone cord and splitter to connect modem
- VGA IBM Photo Graphic™ display

Software

- IBM DOS
- Microsoft Works
- Microsoft Works Tutorial and PS/1 Tutorial
- Microsoft Windows 3.0 and the Productivity Pack (on select models)
- PS/1 Club Online Support Service
- PRODIGY Interactive Personal Service
- Promenade Educational and Entertainment Service

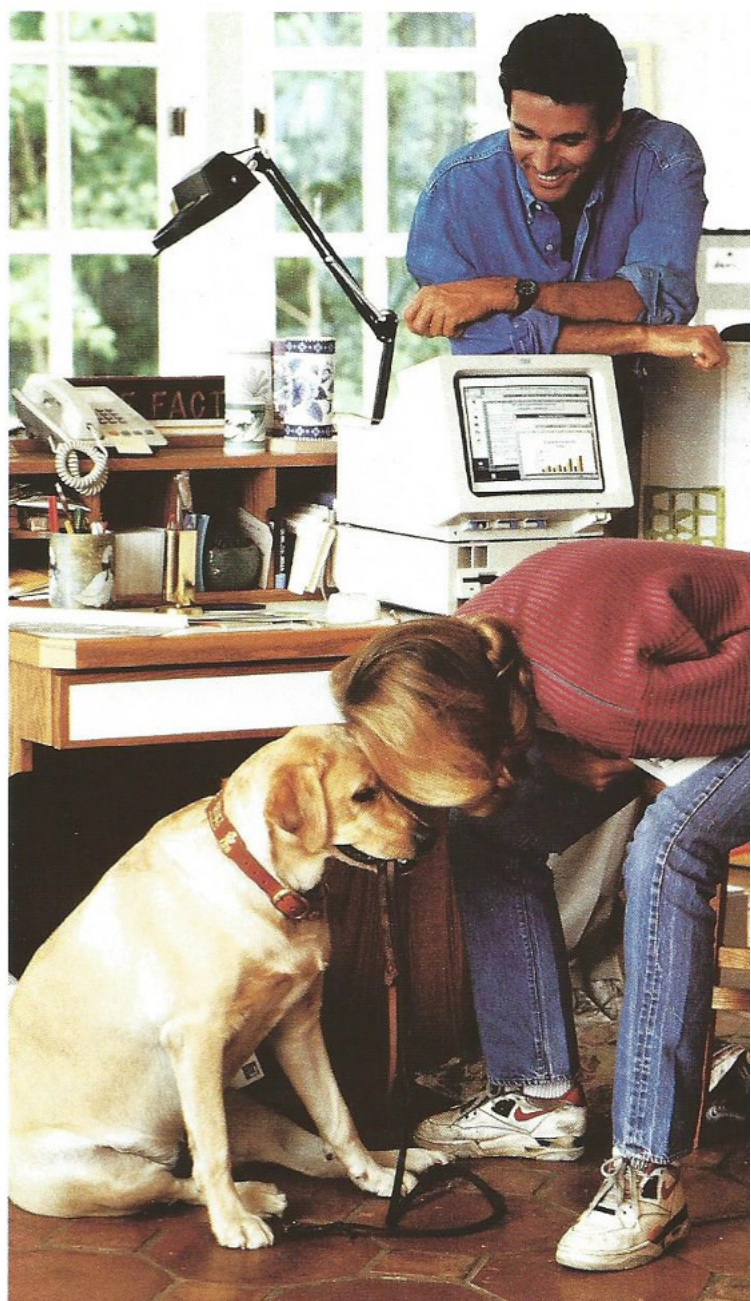

Warranty

- One-year limited warranty on hardware and software

There's even more: options for your PS/1.

- 5.25" diskette drive for home-office work interchange (360KB, 1.2MB)
- 3.5" diskette drive provides more storage and saves time when storing information (1.44MB)

- 2MB expansion card increases memory with simple installation
- 4MB and 512KB memory expansion cards (for select models)
- 30MB fixed disk upgrades 286 diskette models to fixed disk models
- 80MB and 129MB fixed disk for 386 SX systems (may be added as a second fixed disk to select models)
- AT adapter card unit to let you add cards (available for models without internal slots)
- Color VGA IBM Photo Graphic display lets you upgrade from black and white to color

PS/1™

PS/1**Computer at a glance****Model numbers**

B82: Color display, 80MB fixed disk, 2MB memory
C42: Color display, 40MB fixed disk, 2MB memory
C34: Color display, 30MB fixed disk, 1MB memory
M01: black & white display, 512K memory

Standard features

- Hardware:
 - 386 SX processor, 16MHz (B82, C42)
 - 286 processor, 10MHz (C34, M01)
 - 3.5" 1.44MB diskette drive
 - 2 expansion slots (B82)
 - Parallel port
 - VGA Color Photo Graphic Display (B82, C42, C34)
 - IBM Selectric Touch keyboard
 - Built-in 2400 bps modem
 - IBM two-button mouse
 - Headphone jack
 - Built-in time-of-day clock
 - Compact size
 - Built-in speaker
 - Volume control
- Software:
 - IBM Disk Operating System (DOS)
 - Microsoft Works
 - Microsoft Windows 3.0 and the Productivity Pack (B82)
 - PRODIGY Interactive Personal Service¹
 - Promenade Education and Entertainment Service²
 - IBM PS/1 System Tutorial
 - Microsoft Works Tutorial
 - Online PS/1 Club through PRODIGY service
- IBM Express Maintenance
- One-year limited warranty on hardware and software
